Advancement in THA Techniques

8:00am–4:00pm

Course Objective: At the conclusion of the course, surgeons will be able to expand indications around the direct anterior approach, including revision hip arthroplasty or implement the modified antero-lateral surgical technique into their practice.

Products shown in the lab: POLARSTEM[®], ANTHOLOGY[®], R3[®], and REDAPT[®] acetabular and femoral systems.

Course Chairman

Brian J. McGrory, MD

Co-Director, Maine Joint Replacement Institute
Clinical Professor, Tufts University School of Medicine
Falmouth, ME

Friday, October 6, 2017

Modern Knee Solutions

8:00am–3:45pm

This modern knee course will focus on treatment options for partial knees through complex primaries. The course includes protocols, technologies, and techniques designed to restore the lives of the demanding modern knee replacement patient who expects higher levels of satisfaction. It will highlight early experiences and enablers for joint replacement in our changing healthcare climate around CJR/BPCI regulations, short stay, and ASC settings. It features surgical demonstrations, case reviews, and hands-on cadaver labs.

Products shown in the lab: JOURNEY[®] II, JOURNEY UNI, and ZUK, with the enabling technologies of VISIONAIRE[®], NAVIO[®] Robotics, and PSI.

Course Chairman

John E. Ready, MD

Instructor of Orthopedic Surgery at Harvard Medical School
Chief of the Orthopedic Oncology Service
Brigham & Women's Hospital
Dana Farber Cancer Institute
Boston, MA
