## Course description

This course is a 1½-day highly focused surgeon education program covering all aspects of revision hip and revision knee surgery. The course will present the medical and surgical management of revision surgery and will feature didactic lectures, case discussions in small group sessions, and hands-on cadaver workshops. Our expert faculty will cover the latest research, scientific data, and surgical tips and tricks to ensure an optimal learning experience during the course.

## Course objective

The participant will leave with increased confidence in addressing perioperative needs of complex primary and revision hip and knee arthroplasty.

## Participant profile

- Experienced surgeons who want to have more in-depth knowledge and share their expertise
- Surgeons currently performing hip and knee revision cases (min 15 per year) and want to learn more about the medical challenges and possible solutions in revision surgeries
