

# TAYLOR SPATIAL FRAME<sup>◇</sup>

## Limb Restoration Forum

August 9, 2019

### Course Chair

J. Tracy Watson, MD

Grand Hyatt – DFW International Airport  
2337 S. International Parkway  
Dallas, TX 75261

## Course Description

This is an advanced one day course designed around interactive, case based, group discussions. Surgeons will be asked to share best practices in the approach and treatment of complex acute and post orthopedic trauma indications, adult and pediatric limb deformities and in foot and ankle conditions.

## Chair

**J. Tracy Watson, MD**

Orthopedic Traumatology, Limb Reconstruction  
The CORE Institute  
Phoenix, AZ

## Faculty

Jim Binski, MD  
Paul Freudigman, MD  
Phillip McClure, MD  
Stephen Quinnan, MD

## Learning objectives

At the end of this course, participants will be able to:

- Understand and apply deformity analysis, corticotomy considerations, and post-operative management in their daily practice
- Recognize complications and risks for soft-tissue and surrounding structures
- Map out a pre and post-op plan for specific TSF procedures

## Participant profile

Orthopedic surgeons experienced in the use of circular fixation devices and/or TAYLOR SPATIAL FRAME<sup>®</sup> in particular that are looking to up-skill to more advanced indications, surgical approaches or technology.

## Conference Hotel

Grand Hyatt – DFW International Airport  
2337 S. International Parkway  
Dallas, TX 75261  
(972) 973-1234
