

Complex Primary to Revision – Hips

Hilton Salt Lake City Center
255 SW Temple
Salt Lake City, UT

Chairman: Dr. George Guild

Faculty: Dr. Ravi Bashyal, Dr. Kimo Harpstrite, Dr. Bill Huang, Dr. Jeff Krempec, Dr. Chris Pelt, Dr. Adam Sassoon, Dr. Erik Schnaser, Dr. Steve Weeden

Course Objective

At the conclusion of the course, participants should be able to acquire and distinguish the core principles underlying complex primary and revision hip surgery. Associate the latest scientific data that supports different techniques in the field of complex primary and revision THA to an algorithm of surgical decisions. Gain (preliminary) surgical skills for performing THA through Direct Anterior or Able approaches. Learn and apply in the lab the appropriate surgical techniques for the POLARSTEM™, R3™, VERILAST™ and REDAPT™ systems.
