

Current Concepts in Hip Preservation

May 14th – 15th, 2020

Hotel: Westin Edina

Lab Location: S+N Plymouth Lab – 2905 Northwest Blvd #40, Plymouth, MN

Surgery Center: Crosstown Surgery Center – 4010 W 65th St, Edina, MN

Working Dinner: Pittsburg Blue Steakhouse @ Edina Galleria – Adjacent to Hotel

Learning Objective: Develop knowledge & techniques required to safely perform a hip labrum repair, capsule repair to address symptomatic femoral acetabular impingement (FAI). Attendees will hear from experts on current trends and techniques in hip arthroscopy with focus topics on pathology visualization, femoral acetabular impingement (FAI), hip labrum repair & capsule repair. Attendees can expect to learn about the design rationale, materials, techniques and key concepts from technologies available today that may improve patient outcomes to include BIORAPTOR[®], Q FIX[®], COBLATION[®], CAP FIX[®] Blade & DYONICS[®].

Focus Products: CAP FIX[®] Blade, Q FIX[®], BIORAPTOR[®], SUTUREFIX[®], COBLATION[®], DYONICS[®], ACUPASS[®] DIRECT, SPEEDSTITCH[®]

Attendee Profile: Sports medicine orthopedic surgeon that performs at least 10 hip arthroscopy surgeries annually with a desire to learn new techniques in hip preservation surgery.

Chairman: Chris Larson MD

Faculty: Robert Westermann MD, TBD

Thursday, May 14th
